TO: Permit Applicant

STORM WATER PERMIT STATUS

The State Water Resources Control Board (State Board) has received your Notice of Intent to be included in the State Board's General Permit to discharge storm water.

Upon review of your Notice of Intent, it was found necessary to inform you that:

- ☒ Your check was missing or not signed;
- ☒ The fee amount submitted was insufficient;
- ☐ The fee submitted was too large; the overage will be remitted to you;
- ☐ Information was missing from the Notice of Intent;
- ☐ We were unable to verify that you hold a valid, current waste discharge requirement or NPDES permit which would allow your storm water permit fee to be waived.

Enclosed please find a 'CORRECTION LIST' which indicates:

- ☐ What information needs to be added to the Notice of Intent;
- ☒ The fee amount to be submitted before you can be included in the General Permit;
- ☐ The amount to be remitted to you in the near future if you have overpaid.

Please return the CORRECTION LIST. Return the Notice of Intent form if additional information is required. Enclose the additional fee amount indicated. If we couldn't verify your regulatory status, either submit a copy of the first or other page of your waste discharge requirement or NPDES permit showing your order number or permit number, or submit the permit fee as indicated. These documents must be returned to the following address within 30 days of receipt:

State Water Resources Control Board

Dear Mr. Reed:

You may soon receive a letter from the State Water Resources Control Board (Board) regarding the NPDES storm water permit.

I have drafted a letter for you to advise the Board that you will not apply for a permit. Therefore, you do not need to submit the \$250.00 fee. Please copy the letter on your company stationary and mail it, along with the Notice Of Intent Correction List, by Certified Mail, to the noted address.

If you have any questions, please call me.

Very Truly Yours,

M. Dean High, P.E.
Senior Vice President

Re: NPDES Storm Water Permit

Dear Sir or Madam:

After careful review of the general industrial storm water permit and consulting with the State Board specialist, we have concluded that our facility is exempt from the requirements of the storm water permit program. We had earlier submitted a cover letter and the completed NOI at the end of March 1992, to advise you that we would not participate in the program. The NOI was submitted only for your reference to our company.

We received a notice form the State Board regarding the \$250.00 permit application fee. Since we will not participate in the program, we will not submit the requested fee. Please delete our facility from your mailing address list.

If you have any comments, please feel free to contact me again.

Very truly yours,

Michael Reed

STORM WATER PERMIT STATUS

The State Water Resources Control Board (State Board) has received your Notice of Intent for the General Permit to discharge storm water. We are processing these documents at the present time.

As soon as the data are entered into our the computer (sometime after June '92) we will send you more information on the status of your permit.

Enclosed is a Notice of Public Hearing that you may find to be of interest.

Sincerely,

A handwritten signature in cursive script that reads "Archie Matthews".

Mr. Michael Reed
General Manager
Electronic Chrome and Grinding Co., Inc.
9128-32 Dice road
Santa Fe Springs, California 90670

Dear Mike:

Shao-Hua Lu had a telephone conversation with Mr. Leo Cosentini, (916)657-1009, of the State Water Resources Control Board (State Board) regarding the storm water regulation (Regulation) today. Findings are listed below for your information.

- 1) Metal finishing industry sources (SIC 3471) can be exempted from the Regulation if there are no materials (including raw materials, finished products, production equipments, etc) exposed to the storm water at any time.
- 2) The State Board has not written rejection letters to the exemption applicants, nor do they have any intent to do so.
- 3) EPA may, in the future, eliminate the exemption under the Regulation, but the exempted sources can always apply for a permit.

Please place this letter in your file for future reference. If you have any further questions, give me a call any time.

Very Truly Yours,

Dean

GENERAL INDUSTRIAL ACTIVITY STORM WATER PERMIT--PROPOSED MODIFICATIONS TO MONITORING PROGRAM AND REPORTING REQUIREMENTS AND REOPENER CLAUSE

Enclosed is a copy of the August 17, 1992 version of the proposed modifications to the General Industrial Activity Storm Water Permit.

This version of the proposed modifications is in response to the numerous comments received during the public comment period, including testimony provided at the July 13, 1992 public hearing by the Storm Water Quality Task Force. As you will note, the latest version requires sampling and reporting by most dischargers. However, the proposed modifications contain provisions which allow individual facilities to seek exemptions from sampling and analysis.

Staff will present the proposed modifications at the 1:30 p.m. session of the September 2, 1992 State Water Resources Control Board Workshop to be held at the following location:

The Resources Building
First-Floor Auditorium
1416 Ninth Street
Sacramento

The State Water Board is scheduled to consider adopting the new Monitoring Program and Reporting Requirements and Reopener Clause at its September 17, 1992 Board Meeting.

Submission of Comments, Receipt of Documents, and Other Information

Written comments must be received no later than 5:00 p.m. on September 2, 1992. Comments should be addressed to:

Archie H. Matthews
Division of Water Quality
State Water Resources Control Board
P.O. Box 944213
Sacramento, CA 94244-2130

Comments may also be submitted by FAX at (916) 657-2388.

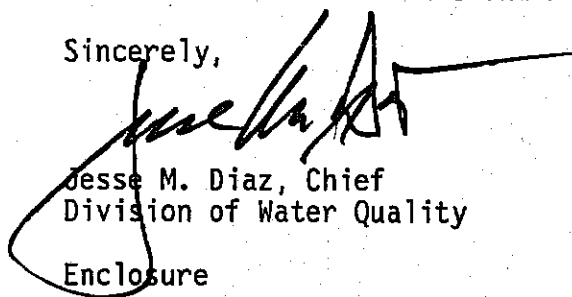

AUG 20 1992

Requests for copies of the proposed modifications and questions regarding the workshop and proposed modifications should be directed to the Storm Water Information Line, telephone number (916) 657-0919.

Parking and Accessibility

The Resources Agency Auditorium is accessible to persons with disabilities. For those driving to this hearing, public parking is available in the garage on Tenth Street between O and P Streets, and in public parking garages on Seventh Street between L Street and Capitol Mall, and on Eleventh Street between O and P Streets.

Sincerely,

Jesse M. Diaz, Chief
Division of Water Quality

**SUBMITTAL OF ANNUAL REPORT - GENERAL INDUSTRIAL STORM WATER PERMIT,
STATE BOARD ORDER NO. 91-13-DWQ (AS AMENDED BY ORDER NO. 92-12-DWQ)
NPDES NO. CAS000001.**

July 1, 1993, was the deadline to submit the annual report for 1992-1993 season, as required by Section B.16 of the State General Industrial Storm Water Permit (General Permit). Our records indicate that a report has not been received.

We remind you that you must perform dry and wet weather inspections, sampling for the monitoring requirements, and the Storm Water Pollution Prevention Plan must be completed, on site, and implemented. Annual Reports are due each year by July 1.

By December 15, 1993, you are required to submit to the Regional Board a completed annual report questionnaire (enclosed). Failure to comply with the requirements of the General Permit, Section C.15 provides for penalties for violations of the General Permit conditions. In the event that you have already submitted an annual report or you are part of a Group Monitoring Plan with a common annual reports submittal, please notify the Regional Board by mail or fax.

If you have questions regarding the storm water program, or need assistance, please contact Dan Kadulescu at (213) 266-7656.
